

MOPAC®

Safe, Efficient Grease Recycling
RESTAURANT & CHAINS

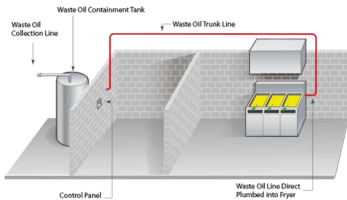

Outdoor Solutions

MOPAC can provide different outdoor containers, which are always complimentary with our service. Our outdoor containers are all made with durable materials, as well as protective features like locks and screens.

Indoor Solutions

We offer a customizable indoor tank, where the specs can be determined by our customers. We can evaluate your property for the best location to install an indoor tank.

Restaurant owners with multiple locations can use any combination of solutions for each store.

SMALL EQUIPMENT

- Comes with a locking ring
- Constructed with steel for corrosion resistance
- Outside dimensions are 23"X24.5" for drums and 36"X33" for small tanks
- Small tank lids allow for easy dumping access

MEDIUM & LARGE TANKS

- Comes locked on both sides for thief protection
- 12 gauge steel for corrosion
- Lid allows easy dumping access and leak tested
- Dimensions are: 200-Gal is 36"X 60"X 33" and 300-Gal is 36"X 60" X 43"

CADDIES AND MOVING EQUIPMENT

- Options include:
- 10,15, and 20 or custom gallon capacity

 - Suction wand to collect oil from top of fryer

INSIDE TANKS

- Options include:
- 200 to 500 gallons, body made custom to customer specs
 - Indoor or outdoor configurations
 - Use with a caddy or have it plumbed direct from the fryer

MOPAC® SUSTAINABILITY

THE LOWDOWN ON GOING GREEN

Climate change is altering patterns of weather and water around the world. At the current water consumption rate, this situation will only get worse. By 2025, two-thirds of the world's population may face water shortages.

70 MILLION GALLONS

That's how much water in our own operations we recycle annually, that's enough to supply over 200 family homes!

460,579 GALLONS OF FUEL SAVED

Our waste heat stream is used to make hot water for our processing plant, recovering over 11.3 MMBTU (One Million British Thermal Units) to be recycled, saving us from burning any fuel.

EMISSIONS REDUCTION CO₂

We utilize various heat sources to reduce over 11,650 tons of greenhouse gas annually.

RECYCLING IS KING
650 MILLION POUNDS OF PRODUCT

We keep millions of pounds of product every day from reaching a landfill. All of our material received is 100% recycled and reused in different industries.

IT'S TIME TO TAKE ACTION

Take action by educating yourself and urging your community to get involved in addressing environmental concerns.
